Brief Description

If you want to develop your language and intercultural skills to such an extent that you can operate effectively in any multi-cultural business environment and be comfortable in an international setting, then the BLCC specialisation track offers you the ideal opportunity to do so.

The BLCC specialisation is offered for 3 language streams – Business French, Business Mandarin and Business Spanish, which you can study at your own pace and with individual coaching. Together with that, you will get the opportunity to explore and work with international organisations in the Netherlands while discovering the ins and outs of culture and communication. Finally, during your time with BLCC your classes will be taught in English except for the language modules.
