

Faculty of Sports and Nutrition

The Faculty of Sports and Nutrition (FSN) is part of the Amsterdam University of Applied Sciences (AUAS). We are on the front line of the intersection between sports, nutrition and management, continuously exploring these interconnected themes. Studying and conducting research at the Faculty of Sports and Nutrition means being part of an active, enthusiastic, informal and challenging environment.

The Faculty of Sports and Nutrition is one of seven faculties at the Amsterdam University of Applied Sciences, the largest university of applied sciences in the Netherlands.

Study programmes

English

Bachelor's programme

Sport Studies - track International Sports, Management and Business (ISMB)

The AUAS launched Sport Studies - track ISMB in response to the growth, professionalisation and increasing importance of the sport sector worldwide.

A global system of national and international governing bodies sets the rules and organises competitions, ranging from local youth leagues to world championships and Olympic Games. Sport Studies – track ISMB focusses on

the three contexts of the World of Sport: Sport Commerce, Sport Development and High Performance Sport.

Collaboration

Our faculty has close ties with businesses and institutions across the city of Amsterdam and beyond. There are many ways to collaborate with us. Motivated students, lecturers and researchers are eager to welcome guest lecturers to our programmes and ready to work on research assignments and internship posts for companies.

Research expertise

Centre of Expertise Urban Vitality

The AUAS's Faculty of Sports and Nutrition and Faculty of Health bundle their research efforts in one Centre of Expertise on Urban Vitality. This Centre of Expertise focuses on the vitality of Amsterdam's residents. How can they stay healthy or become even healthier? This covers everyone, from high-level competitive athletes to people who need the very best care, from diabetics to wheelchair basketball players and every group in between. Under the auspices of the Urban Vitality programme, 18 professors (including professors by special appointment) are working together intensively on a number of core programme themes with a view to improving the health and lifestyle of Amsterdam residents. These themes are: Intensive Complex Care, Healthy Ageing, People in Motion, Grow up Healthy, Sport, Performance and Management.

Contact

Would you like to collaborate with us or do you have questions? Our International Offices are the first point of contact for education-related questions in the English language. They can connect you with the right person at the AUAS.
