

Faculty of Technology

The Faculty of Technology (FT) is one of the leading schools of its kind in the Netherlands, providing challenging and inspiring education as well as high-quality and impactful research. We deliver expertise and applicable solutions for sustainable living in the cities of tomorrow: this is our commitment to the Amsterdam Metropolitan Area and the world. We aim to be the driving force in Amsterdam in our main expertise: Circular Transition, Connectivity & Mobility, Designing Future Cities, Energy Transition, Smart Industry and Technology for Life. The Faculty of Technology has excellent working relations with the local business community and government institutions, enabling us to make our education programmes practice-oriented and business-relevant, and ensuring our students gain valuable experience in their future professional fields.

The Faculty of Technology is one of seven faculties at the Amsterdam University of Applied Sciences, the largest university of applied sciences in the Netherlands.

- ▶ Forensic Research

Research expertise

Centre for Applied Research

At the Faculty of Technology, we conduct technological applied research in research groups, led by professors. The Centre for Applied Research on Technology is our home base for this research. We research and design technology-driven interventions for a powerful, sustainable, liveable, and connected city. We forge together towards this goal, with our network of partners from professional practice and through our innovative research, making a substantial impact as we go. Our aim is to keep the education we offer cutting edge and as a result to contribute to educating technical professionals who are well-equipped to solve the issues society is facing today, and tomorrow.

Centre of Expertise

City Net Zero works on three missions related to the future of Amsterdam: Zero Emissions, Zero Waste and Zero Impact of Climate Extremes. City Net Zero stimulates innovative research, strengthens cooperation between research, education and our partners, and ensures that the knowledge and innovations gained are integrated in professional practice.

Collaboration

The Faculty of Technology has close ties with businesses and institutions across the city of Amsterdam and beyond. There are many ways to collaborate with us. Motivated students, lecturers and researchers are eager to welcome guest lecturers to our programmes and ready to work on research assignments and internship posts for companies.

Contact

Would you like to collaborate with us or do you have questions? Our International Offices are the first point of contact for education-related questions in the English language. They can connect you with the right person at the AUAS. You can reach us via internationalofficeft@hva.nl
