

Manual Change start date of employment anniversary

Below you can read how to change the start date of an employee's employment anniversary. The start day of an employment contract is automatically registered as anniversary date. If, however, employees were employed by an organisation that follows the Collective Labour Agreement for Dutch Universities of Applied Sciences (cao hbo), those years can be added to their work years. You can adjust the start date of an employment by using this form.

Keep proof of the earlier employment (an employment contract or ABP overview) at hand, you will be asked to upload this later. The Administration Centre will check the submitted form and adjust the date.
