

Decision tree: should I come to campus to study or go to my work placement?

I study at the AUAS and:

- I have symptoms that may indicate coronavirus or
- I have come into contact with someone who is (presumed to be) infected with coronavirus or
- I have returned from a high-risk area (including within the Netherlands).

Please abide by the guidelines and measures imposed by the RIVM and the GGD at all times.

Therefore, if you have any symptoms that may be associated with coronavirus, please make an appointment to get tested. If you have any symptoms, you must self-isolate until you get the results of the test. Please follow the recommendations of the GGD. Please contact your academic adviser to minimise any study delays where possible. Get well soon!

Have you tested positive?

- Self-isolate according to the measures of the RIVM and GGD.

Have you tested negative?

- Please continue to abide by the guidelines and measures imposed by the RIVM and the GGD. If permitted under these guidelines and measures, you may come to the AUAS according to your timetable or go to your work placement.
- **Please note** that the recommendation to study and/ or do your work placement from home (as much as possible) still applies.

Additional information and/or personal advice

Please visit the websites of the [RIVM](#) and the [GGD](#) for the most up-to-date information on coronavirus.

For the most up-to-date information from the AUAS on studying during COVID-19, please visit [Studying Together Safely](#).

Please take good care of yourself and of each other. Only together will we get coronavirus under control!

NB: this decision tree was created on 29 September 2020 and may be subject to changes.
