

How to set up your student email account on an Android device

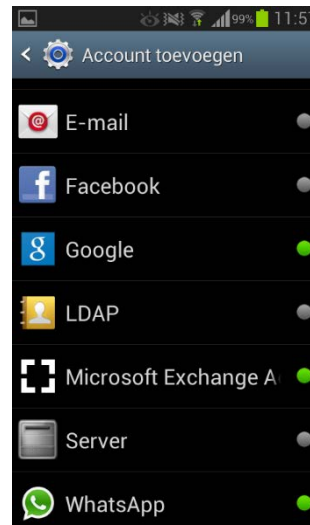

1. Go to the menu of your Android device
2. Select *Settings*

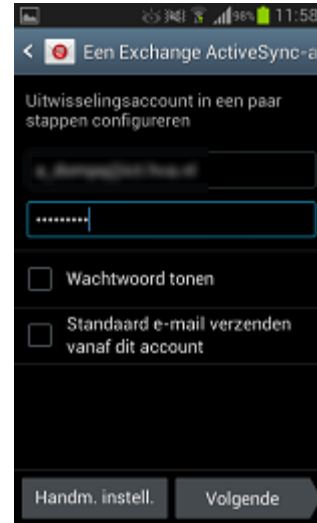

3. Select *Add Account*

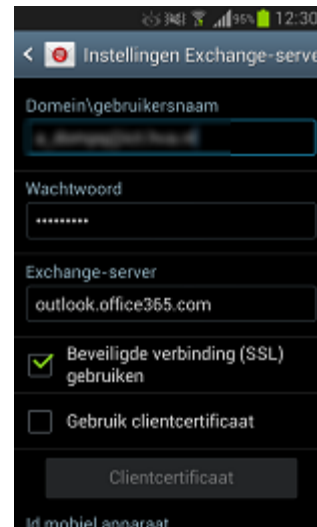

4. Open *Email*

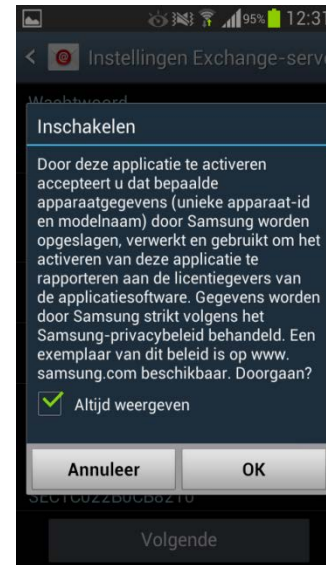

5. Enter your AUAS ID (username) and password and select *Manual setup*

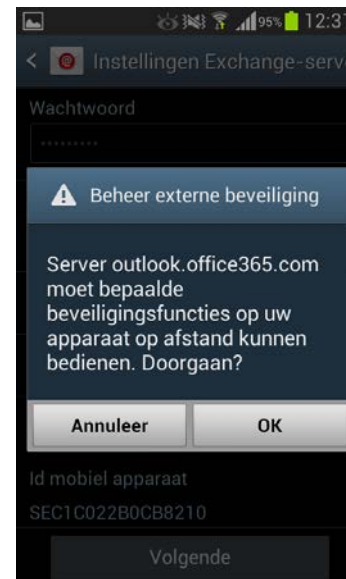

6. Enter your email address, your password and the name of the Exchange server. Select *Use secure connection (SSL)* and click *Next*.

7. Select OK

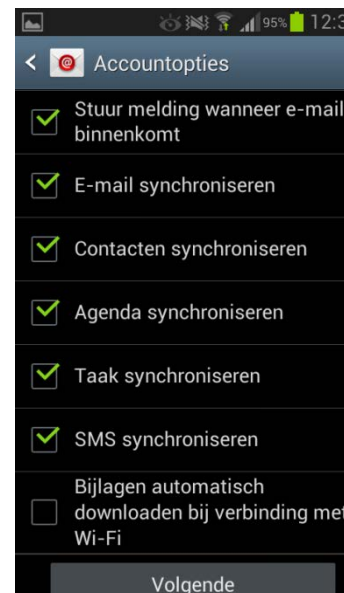

8. Select OK

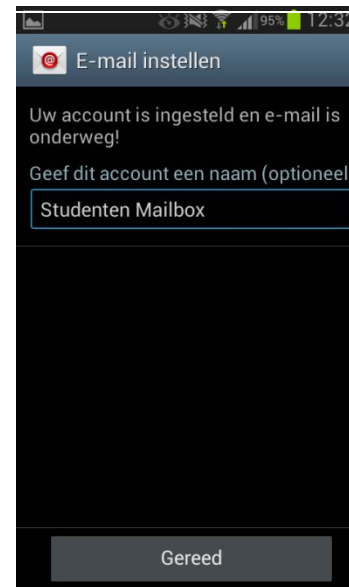

9. Choose the settings for the retrieval of new email messages. Click *Next*

10. Turn the email message synchronization on or off. Click *Next*

11. Enter an email account name. Click *Done*.

12. The setup is now complete.
