

### **Can I still enrol for a degree programme at AUAS after 1 May?**

If you have not studied in higher education before, for example because you come from mbo, havo or vwo, you can not enrol in a full time degree programme anymore after 1 May.

Enrolling after 1 May is only possible when you have already been admitted to higher education (at AUAS or another institution) during the current academic year. This also applies to students who enrolled for a degree programme (at AUAS or another institution) before 1 May who wish to change their study choice after this date.
