

## AFTER A YEAR, SHE TALKS...

Cynthia (14) confidentially tells the educator the following: her brother (16) went too far last year. After they had a frolic, he laid on top of her and felt her up. In the process, he put his hand in her underpants and pushed his finger into her vagina.

When she said she did not want this, he immediately stopped. The girl is confused about this and hasn't spoken about it with anyone.

The brother is also staying in the organisation...
