

HENK DOES NOT KNOW WHAT TO DO...

Henk is a group worker employed in a residential care institution in youth care. In his group there are eight boys and girls between the ages of fourteen and eighteen. These youngsters have issues with their parents and school. Some of them have been sexually abused.

The youngsters in the group often fall in love with one another. The rule set by the educators is that being in love is fine, but having sex is forbidden. In spite of this rule, occasionally youngsters from this group have sex with each other. This happens outside the institution.

Sometimes they kiss and cuddle with their clothes on, but sometimes they take it further and masturbate each other.

One of the girls, Monique, recently told another girl in the group, Miriam that, one of the boys in the group, Carlos, had crossed the line. Monique was madly in love with Carlos, but didn't want him putting his hand down her trousers. But he did it anyway. Miriam then decided to tell Henk, the group worker.
