

## JENNY, 12 YEAR OLD, CHATTING WITH STRANGERS.

Jenny, 12 years old, is placed with foster carers due to neglect. She is physically well developed, but otherwise she does not demonstrate age-appropriate development emotionally or behaviorally. She spends much time chatting online with other children/adolescents.

You have recently found out that Jenny is also chatting with strangers, often older men. She meets up with them and offers sexual services for cigarettes, clothing, money and other gifts.
