

## JOY, 13 YEARS OLD, SENDS NUDE SELFIES

Joy is a girl with a history of abuse. She is 13 years old. Nowadays the abuse has ceased, as she is staying in residential care and the relationship between her mother and stepdad has ended. She likes dressing up provocatively, and she openheartedly talks to the educators and other girls about her sex life. One evening the group was having a good time and was discussing falling in love, boys, and relationships. Joy admitted to the other girls that she frequently sent nude selfies to male classmates 'to see how they react'.
