

## TINA, 9 YEAR OLD, SUSPICIONS OF ABUSE.

Tina, a 9 year old girl, has recently become more introverted and sad. There are signs of an incipient depression. Tina is often complaining about headaches and stomach aches. She likes to go on home visits, to her parents, but when she comes back, she goes straight to her room and shuts the door. You are beginning to suspect that Tina may be exposed to sexual abuse or assault.
